

Training of Trainers (ToT) workshop on electronic (G2C) Livestock Service Delivery System

18-12-2020. A two-day Training of Trainers (ToT) workshop on electronic Government to Citizen (G2C) Service Delivery System for the Dzongkhag Veterinary Officers (DVOs) and Dzongkhag Livestock Production Officers of East and East-Central Region is underway at Druk Zhonghar Hotel in Mongar.

The initiative is aimed at improving the livestock service delivery through reduced turn-around-time (TAT) and significantly improve judicious use of scarce livestock inputs including veterinary medicines. The idea of transforming service delivery system to electronic platform is to make it more accessible, accountable and efficient. This is a joint undertaking of the MoAF and MoIC, spearheaded by the National Centre for Animal Health (NCAH) and the Information, Communication and Technology Division (ICTD) and is funded through the Fleming Fund project.

The ToT for the West and West Central region will be conducted on 24th-25th December and the G2C is expected to be rolled out from the 1st of January 2021. The opening session of the ToT at Mongar was graced by the Program Director, NCAH, Thimphu along with the officials from the Department of Livestock and ICTD. A total of 25 participants attended the ToT training in Mongar.
