

“Competency-based Framework (CBF)” Development for Livestock Production Officers

25 Livestock Officials comprising of Livestock Production Officers (LPOs) from RLDCs, DLS, Central Programs and Farms of west & west-central Dzongkhags are currently participating in 3-days class-room training on “Application of Q-GIS in Livestock Development” organized by the Department of Livestock. The training is a part of implementation process of “Competency-based Framework (CBF)” developed for LPOs with the support from Royal Civil Service Commission. CBF is an initiative of RCSC which integrates effective HR planning and capacity building of civil servants and enables an organization to assess its workforce based on competencies across all proficiency levels. The CBF for LPOs was approved by RCSC in early 2020.
